

H&M Group

In cooperation with

Certificate of Excellence in Achieving Water Efficiency

This certificate is awarded with great appreciation to

Saiham Knit Composite Ltd.

in recognition of its outstanding contribution to the

Programme on Water Saving in the Textile and Garment Industries (WaSaTex)

The 'WaSaTex' programme was executed under the framework of Skills for Self-Monitoring and Compliance with Clean and Fair Production in the Textile Industry (SCAIP) project, implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, in collaboration with H&M Group and their 50 suppliers from August 2023 – February 2025. This initiative focused on the reduction in freshwater consumption within the textile factories in Bangladesh through the implementation of best available techniques, with a particular emphasis on cost-effective approaches, prioritizing no-cost to low-cost solutions.

This certificate is awarded in recognition of the factory's steadfast commitment to implementing sustainable water-saving practices within the factory, as well as its exceptional efforts in achieving significant water reduction.
